

# Higher productivity with Sectra

## MEET US AT OUR BOOTH AND LEARN MORE ABOUT HOW TO BOOST READING AND REPORTING EFFICIENCY

- » Make life easier with full access to all images and tools from a single workstation with a single login.
- » Intuitive user interface reduces need for training and makes radiologists efficient.
- » Intelligent workflow management: "Your work will find you, instead of you having to search for your work."
- » Advanced streaming technology for fast image display anywhere, anytime on any device.

## ABOUT SECTRA

At Sectra, we work toward a vision of patient-centered care where images and data follow each of your patients during their care journey—smoothly, efficiently, and with no organizational structures and IT systems getting in the way.

With over 25 years of innovation and more than 1,800 installations, we've been turning that vision into reality for our customers and their patients around the world. Our experience in radiology has paved the way to deliver enterprise solutions that consolidate image handling and maintain clinical workflow efficiency in some of the costliest, most image- and resource-intense departments, including mammography, pathology, cardiology, and orthopaedics.
