

Abdominal and Oncological Radiology Symposium

Nordic Congress of Radiology 2019

Organizers: DFOR and DRS

Thursday May 23, 2019

08.30-10.00 **Contrast Agents**

Chairs: Lisbeth Røhl, Aarhus University Hospital, Denmark

- ▶ Iodine- and Gadolinium based Contrast Agents. Update on ESUR Guidelines (60 min.)
Henrik S. Thomsen, Herlev, Denmark
- ▶ Update on contrast-enhanced ultrasound in oncology (30 min.)
Paul Sidhu, London, United Kingdom

10:45-12.15 **Peritoneal Metastases. Spectral CT in oncology.**

Chairs: Hanne Sandstrøm, Roskilde, Denmark

- ▶ Detection and follow-up of peritoneal metastases (30 min.)
Mona Rosenkilde, Aarhus, Denmark
- ▶ Cytoreductive surgery and HIPEC (30 min.)
Mette Møller, Aarhus, Denmark
- ▶ Symposium Philips: Detection of cancer and other serious diseases on Spectral CT (30 min.)
Speaker TBA

13.15-14.45 **Pancreatic cysts**

Chairs: Lars Peter Larsen, Aalborg, Denmark

- ▶ Pancreatic cystic lesions: Detection, characterization and management (45 min.)
Nikolaos Kartalis, Stockholm, Sweden
- ▶ Imaging for diagnosis and grading of chronic pancreatitis, international guidelines and collaboration, and future directions (45 min.)
Jens Brøndum Frøkjær, Prof, Aalborg, Denmark

15.30-17.00 **Imaging parenchymal liver disease**

Chairs: Erik Morre Pedersen, Aarhus, Denmark

- ▶ Parenchymal liver disease: What the hepatologist likes to know from the radiologist (20 min.)
Henning Grønbæk, Department of Hepatology & Gastroenterology, Aarhus University Hospital, Denmark
 - ▶ Liver elastography by MRI and ultrasound (30 min.)
Caroline Ewertsen, Copenhagen, Denmark
 - ▶ Interactive presentation of cases: Parenchymal liver disease by different imaging modalities (40 min.)
Eva Fallentin, Copenhagen, Denmark *and* Lars Peter Larsen, Aalborg, Denmark
-
